EDUCATION

Yeshwantrao Chavhan College of Engineering <i>Bachelor of Technology in Computer Science and Engineering, GPA: 7.90</i>	Nagpur 2023 – 2027
St. Paul Junior & Senior College (State Board) <i>Higher Secondary Education (XII), 62%</i>	Nagpur 2023
Narayana Vidyalayam (CBSE) <i>Secondary School Education (X), 91.80%</i>	Nagpur 2021

EXPERIENCE

Microsoft AI Azure (AICTE) <i>Intern May – June 2025</i>	4 Weeks, Online
- Completed 4-week virtual internship on Microsoft Azure AI, finishing 7+ hands-on labs for cloud computing, model training, and AI service integration. - Deployed end-to-end object detection solution using Azure Cognitive Services / Custom Vision, training model on labeled images across 5 object classes. - Validated model on 100+ test images, achieving 85%+ accuracy, deploying as a cloud-based inference solution. - Integrated and tested AI service using REST APIs, gaining exposure to scalable AI deployment pipelines and cloud architecture.	

TECHNICAL SKILLS

Web Technologies – *HTML, CSS, JavaScript*
Database & Tools – *MySQL, MongoDB Atlas, VS Code, Git, GitHub*
AI & Cloud – *OpenCV, YOLO, Microsoft Azure, Azure Machine Learning*

PROJECTS

Bank Management System <i>React, Node.js, Express.js, MongoDB, Vercel</i>	GitHub Live Demo
- Built a full-stack MERN banking app with secure user authentication and bcrypt password hashing. - Designed 7+ RESTful APIs in Express.js for deposits, withdrawals, and peer-to-peer transfers. - Engineered atomic MongoDB transactions for data consistency and deployed on Vercel with serverless API functions and responsive React frontend.	
Prakriti Connect <i>React, Node.js, Express.js, MongoDB, Vercel</i>	GitHub Live Demo
- Built a MERN platform to manage 6+ environmental events and 20+ volunteers, featuring event discovery, registration, tracking, notifications, and role-based dashboards. - Developed 10+ REST APIs and analytics dashboards to monitor participation metrics, reducing manual coordination effort by 40%.	
Weather App <i>JavaScript, HTML, CSS, Tailwind CSS</i>	GitHub Live Demo
- Built responsive weather app with glassmorphic UI, integrating Weather REST API via asynchronous JavaScript to display 6 real-time metrics and 24-hour forecasts. - Implemented robust client-side error handling for 3+ edge cases ensuring 98% app stability, and deployed on Vercel with static-site configuration.	

ACHIEVEMENTS

Hackathons: Competed in Smart India Hackathon 2025 and a college-level hackathon, driving innovation and technical solution design .	
College Event Organization (YCCE TechFest) <i>Problem Solving, Team Collaboration</i>	2026
- Led a 7 member team to successfully execute a tech event, managing end-to-end logistics for 80+ participants. - Optimized task workflows and resolved real-time operational challenges, ensuring 100% on-time execution and a seamless attendee experience.
